Source: 1998 Graduate Study in Psychology. Compiled by the APA Research Office.

Note. These data are based on information provided by 504 departments that responded to the survey and reported data on number of first-year students enrolled in the graduate psychology department. Due to incomplete U.S. enrollment data and an inability to determine race/ethnicity, the following cases were not included in this table: 86 public, full-time doctoral students, 192 private, full-time doctoral students, 84 public, full-time master's students, and 24 private, full-time master's students. Due to rounding, row and column percentages may not total 100. Data should be interpreted with caution when N is small.

* Results are less than 1%.
