Source: 2007 Salaries in Psychology. Preliminary Data. CPWAR, American Psychological Association. 2007.

Note: Salaries for faculty and independent practice are reported on a 9-10-month and 11-12-month basis, respectively. Conversion from a 9-10-month to 11-12-month period can be accomplished by multiplying by 11/9. Conversion from 11-12-month salaries to 9-10-month salaries can be done by multiplying by 9/11.

Adjusted salaries are the result of dividing the median salaries by the cost of living index, and then multiplying by 100.

Those metropolitan areas with an N less than 5 have been excluded.
